Allied Pixel Adds Live Captioning for Webcasting

MEDIA, PA (July 2019) – Allied Pixel has added live captioning capability for webcasts. As live webcasting becomes increasingly popular, there is a growing demand to make webcasts accessible to viewers who are deaf or hard of hearing. Live captioning is the process of turning the spoken word into captioned text.

"Making webcasts accessible to all viewers is critical," Allied Pixel president Bill Haley said. "Live captioning is a big step forward in that regard."

For more information about Allied Pixel's live webcasting services, visit www.alliedpixel.com/services/webcasting-services/.
